

Final External Evaluation

Better Migration Management Programme Phase III

Annex

26 March 2025

Commissioned by:

The IOM Regional Office for the East, Horn and Southern Africa

Evaluation Team:

Dr. Vytautas Jankauskas

Loes van der Graaf

ANNEX 1. EVALUATION TERMS OF REFERENCE

Terms of Reference

Final External Evaluation for the Better Migration Management Programme (BMM) PHASE III

Commissioned by: International Organization for Migration (IOM) Regional Office for the East, Horn and Southern Africa

Managed by: BMM Regional Office coordination team

Evaluation context

The Project “Better Migration Management Programme” Phase III promotes safe, orderly and regular migration from and within the East and Horn of Africa.

Implemented in Djibouti, Ethiopia, Kenya, Somalia, South Sudan, and Uganda, this is the third phase of a regional, multi-year, multi-partner programme born out of the [Khartoum Process](#), which is a platform that supports states in identifying and implementing concrete projects to address the trafficking of human beings and the smuggling of migrants.

BMM started during its first phase in 2016. It is funded by the [European Union](#) (EU) and the [German Federal Ministry for Economic Cooperation and Development](#) (BMZ) and coordinated by the [Deutsche Gesellschaft für Internationale Zusammenarbeit](#) (GIZ). IOM is one of the implementing partners of the programme alongside the British Council, CIVIPOL, GIZ and UNODC.

The programme is implemented in collaboration with the African Union, the East African Community and the Intergovernmental Authority on Development. Its overall objective is to enable national authorities and institutions to manage safe, orderly and regular migration by applying a human rights-based approach and addressing human trafficking and smuggling of migrants. It is implemented in three interconnected components:

1. Strengthening migration governance to create legal frameworks for regionally coordinated migration management;
2. Supporting institutions to combat human trafficking and smuggling of migrants through integrated border governance; and
3. Protecting victims of trafficking and vulnerable migrants.

Phase III runs between 1 October 2022 – 31 March 2025; with the implementation period ending in December 2024, with limited activities to be finalized in January 2025. The programme has a set list of objectives, outcomes and outputs which are drafted for all implementing partners, which forms IOM’s results matrix.

Considering the above, IOM is looking for an Evaluator (individual consultant) to conduct an **evaluation** for the Project following the end of the implementation period.

Evaluation purpose and objective

IOM is undertaking an evaluation one month after the end of the implementation period, with the objective of examining and reviewing the results achieved by IOM’s BMM interventions.

The evaluation is being conducted for use by the IOM BMM project management team to assess the results of the project, document key lessons learned and best practices from a complete set of activities but also provide

recommendations to inform development of a fourth Phase of BMM. The evaluation should examine success of implementation across the above mentioned three components, to identify the component with most impact.

In addition, the evaluation is expected to assess how effectively the BMM specific cross-cutting themes were integrated in the project design, implementation, and reporting. These themes are gender, human rights, peace and security, participatory development and good governance, poverty orientation and migration and climate change.

The intended audience of the evaluation includes IOM, government authorities which acted as counterparts of the Project and beneficiaries, including local government authorities and stakeholders.

Evaluation scope

The final evaluation will cover the entire implementation period of the programme (1 October 2022 to 30 December 2024) and all its phases, including project conceptualization, stakeholders' engagement, implementation of the activities, and project reporting.

The evaluation will entail interviews with IOM staff, government stakeholders and beneficiaries who participated in the implementation of the Project, at both local and national levels, in BMM implementing countries (Djibouti, Kenya, Somalia, South Sudan, Ethiopia and Uganda). It will also include interviews with other organisations implementing BMM, such as GIZ, CIVIPOL, British Council and UNODC.

The assignment will be fully home based for a duration of two months.

Evaluation criteria

The final evaluation will use the OECD-DAC evaluation criteria, covering relevance, coherence, effectiveness, efficiency and cost-effectiveness, impact and sustainability. While attempting to cover all criteria in this framework, the Evaluator, in coordination with the evaluation management team, will be required to prioritize the most critical and relevant ones. This prioritization being informed by BMM's objectives, stakeholder needs, and available resources. In the Inception Report, the evaluator will provide a clear rationale for prioritization. The Inception Report and the Evaluation Report will also explain why it was impractical to assess all criteria equally, considering factors such as time constraints, data availability, and the scope of the evaluation. In the Inception Report, the Evaluator will lay the groundwork for a focused and effective evaluation process that provides the project team and stakeholders with valuable insights by precisely outlining the focus criteria and providing evidence for the chosen methodology.

Evaluation questions

The Evaluator will be required to answer evaluation questions under each of the pre-evaluation criteria and cross-cutting themes. The following list of evaluation questions is indicative. The evaluator will refine this list in the Inception Report, also based on the findings from the review of project documentation and other relevant literature. A detailed **evaluation matrix**, inclusive of all evaluation questions, shall be part of the Inception Report.

Table 1. Evaluation questions per evaluation criteria

S/N	EVALUATION CRITERIA
	RELEVANCE
Q1	Were IOM's interventions aligned with national priorities, strategies and policies?
Q3	Was the project relevant to the needs of beneficiaries and target groups? To what extent were those needs taken into account during project design?
Q4	Did IOM's activities remain valid and pertinent as originally planned, or were they subsequently modified? (If modified, analysis on component with most modifications, reasons, and overview of bottlenecks)
Q5	How did project stakeholders, including partners, beneficiaries, and duty-bearers, show their participation and ownership? More precisely, in what ways did they contribute to IOM's project design and implementation via collaboration, coordination, or providing support?
EQ	COHERENCE
Q5	How well does the project align and is and compatible with other IOM projects or activities? Have any complementarities or synergies been observed?
Q6	To what extent do IOM's interventions under BMM align and are compatible with activities implemented through other BMM implementing organisations? Have any complementarities or synergies been observed and where are there areas of opportunity? ¹
EQ	EFFECTIVENESS
Q7	Have the project's outputs and outcomes been achieved in accordance with the stated Activity Work Plans and results matrix?
Q8	Was the quality of project outputs deemed satisfactory by the main stakeholders?
Q9	What major internal and external factors have influenced (positively or negatively) the effective achievement of project's outcomes?
Q10	To what extent has the project adapted to changing external conditions in order to ensure project outcomes?
EQ	EFFICIENCY AND COST-EFFECTIVENESS
Q10	How cost-effective was the project? Were the incurred costs proportional to the results achieved? Could the activities have been executed with fewer resources without compromising the quality and quantity of the results?
Q11	How efficient was the overall management and implementation of the project? Were there any significant delays in the overall implementation?
Q12	Were the project monitoring and reporting (technical and financial) procedures well-established at country level, and conducive to tracking implementation progress in a timely manner, to share with the Regional Office?

¹ The purpose of this question would be to identify how well IOM's BMM activities synergise with other organisations implementing BMM and identify areas for greater synergy under BMM 4. At the moment we have some idea but it would be good to have a comprehensive overview

EQ	IMPACT
Q13	What are the most significant changes or impacts, whether positive, negative, intended, or unintended, that have emerged in the short or medium term as a result of the project?
Q14	Did the intervention take timely measures for mitigating any unplanned negative impacts?
EQ	SUSTAINABILITY
Q16	Did the project take specific measures to guarantee sustainability as per the matrix developed and how was this supported by partners and the IOM?
Q17	Did the target groups/stakeholders make any plans to continue with ensuring the project deliverables persisted after the end of BMM's support?

Evaluation methodology

The Evaluator will be required to propose an appropriate evaluation methodology which will be detailed in the Inception Report. The methodology should involve a mixed-method approach including but not limited to Key Informant Interviews (KII) and clearly define the sampling strategy and data collection techniques to be used. The evaluation methodology will be finalized in consultation with the evaluation management team during the inception phase. Approximately 37 KIIs will take place, including three project stakeholders (government or other beneficiaries), fourteen IOM staff members, including those responsible for implementing BMM and one person from each BMM implementing organisation.

Table 1. Table of the proposed Key Informant Interviews quotas

S/N	Type of interviewees	Number of interviewees	Nature of interviews	Location
1	Project stakeholders from Government Ministries, Department and Agencies	18 (3 each)	KIIs	Kenya, Ethiopia, Uganda, Somalia, South Sudan, Djibouti
2	IOM BMM and other project staff	14	KIIs	Kenya, Ethiopia, Uganda, Somalia, South Sudan, Djibouti
3	Staff from other BMM implementing organisations (CIVIPOL, British Council, UNODC, GIZ)	5	KIIs	Kenya, Djibouti, Belgium, Ethiopia, Uganda. Note, there is 1 regional coordinator for Somalia and Kenya, and the South Sudan coordinator is based in Brussels for GIZ

Additionally, IOM encourages the use of both primary and secondary data sources for the project evaluation.

Ethics, norms and standards for evaluation

IOM abides by the [norms and standards](#) of United Nations Evaluation Group (UNEG) and expects all evaluation stakeholders to be familiar with the ethical conduct guidelines

https://evaluation.iom.int/sites/evaluation/files/documents/2020_Ethical_Guidelines_for_Evaluation.pdf of UNEG and the consultant(s) with the UNEG codes of conduct as well.

In light of the above, the evaluation must follow IOM Data Protection Principles, UNEG Norms and Standards for evaluations and relevant ethical guidelines.

Hired Evaluator must abide with the following.

- Consultant shall operate in an impartial and unbiased manner and give a balanced presentation of strengths and weaknesses of the policy, program, project or organizational unit being evaluated.
- Evaluators shall respect people's right to provide information in confidence and make participants aware of the scope and limits of confidentiality, while ensuring that sensitive information cannot be traced to its source.
- Evaluators shall ensure that independence of judgement is maintained, and that evaluation findings and recommendations are independently presented.
- Evaluators are accountable for the completion of the agreed evaluation deliverables within the timeframe and budget agreed, while operating in a cost-effective manner.

Evaluation deliverables

The Evaluator is expected to deliver the following:

- Inception Report: This should outline the proposed methodology, including an overview of the rapid desk review conducted outlining the evaluators' understanding of the programme and its evaluability, an evaluation matrix with the final list of evaluation questions and elaboration on how each question will be answered, the evaluation workplan and the data collection tools (i.e., interview guide for KIIs, focus group discussion guides, etc.).
- Evaluation Report: The evaluation report based on the IOM template will be inclusive of an executive summary, background and context, methodology, findings structured against the evaluation criteria and evaluation questions (including a scorecard representation of the evaluation results per each criterion/question considered, based on IOM's template), lessons learned, conclusions and recommendations. This deliverable includes the delivery of a presentation on the evaluation at a date and through modalities established by IOM.
- IOM Evaluation Documentation: To meet IOM's institutional requirements on documentation to be submitted after completing an evaluation, the Evaluators will produce an Evaluation Learning Brief of two pages and fill in the relevant sections of the Management Response Matrix for IOM to complete.
- Anonymized datasets as well as the scripts used for qualitative and quantitative analysis should be handed over to a designated IOM focal person.²

Specifications of roles

- Both IOM and an Evaluator have a role to play and responsibilities towards the successful implementation of this final evaluation: IOM is responsible for sharing with the Evaluator all the

² This will be done compatibly with confidentiality obligations towards informants and other participants in the ex-post evaluation.

documentation that is relevant the final evaluation, without exclusions or omissions. The Evaluator is responsible for the organization and the comprehensive review of the documentation received.

- IOM will make administrative and logistical arrangements for fieldwork, including the scheduling of interviews with the project stakeholders and the organization of transport within BMM implementing countries and for the purpose of this final evaluation. The main responsibility for the accurate planning and conduction of data collection activities in accordance with robust methodological standards remains however with the Evaluator.
- IOM shall review the deliverables submitted by the Evaluator within the shortest delay possible and provide clear, detailed and constructive feedback to ensure that revision processes are carried out informedly and efficiently.

Time schedule

The total duration of the evaluation is two months. Below is a table with the schedule for the submission and finalisation of the evaluation deliverables:

Deliverable	Submission to IOM for review by:	Feedback from IOM by:	Finalisation of the deliverable by:³
Inception Report	22 January	23 January	24 January
Evaluation Report	27 February	1 March	4 March
IOM Evaluation Documentation, interview script handover and PowerPoint presentation	5 March	6 March	9 March

The table below provides an indicative time allocation across the different activities of the evaluation. The Evaluator is requested to include a more detailed workplan for the evaluation in the Inception Report.

Activity	Responsible party	Indicative number of workdays	Indicative timing
Desk review of project documents, preparation of the Inception Report and related revisions.	Evaluator IOM (documentation provision and revisions)	5 days	20 – 24 January
Tool development and refinement	Evaluation	10 days	24 January - 2 February
Data collection through Key Informant Interviews and Focus Group Discussions	Evaluator IOM (fieldwork facilitation)	20 days	2 – 21 February

³ Deliverables are considered as final when they are approved by IOM. Finalization may entail different rounds of review, depending on the quality of the work submitted.

Data analysis and drafting of the Evaluation Report and related revisions.	Evaluator IOM (revisions)	12 days	21 February - 4 March
Preparation of IOM Evaluation Documentation, handover of scripts, presentation and debriefing with IOM	Evaluator IOM (revisions)	5 days	4 March – 9 March 2025

Qualifications of the Evaluator

Desirable qualifications:

1. Master's degree in a relevant discipline, such as international relations, migration studies or protection. A doctorate degree is an added advantage.
2. Advanced technical understanding of project management cycle and key concepts, issues, actors and processes around migration governance, migration management or protection
3. A minimum of 3 years of work experience in project monitoring and evaluation, stakeholders' engagement, data collection, analysis, and report writing, with proven track record of having conducted evaluations similar to this assignment in terms of size and complexity.
4. A minimum of 2 years' experience of working in the field of migration
5. Good knowledge of and past experience of work with the United Nations is an advantage.
6. Understanding of methods of stakeholder analysis and program design.
7. Excellent communication skills in written and spoken English

Submission of application

IOM invites applicants interested in this evaluation to submit via e-mail their Curriculum Vitae and Covering Letter in PDF format, along with a technical and financial proposal to the following addresses: RO Nairobi Procurement at RONairobiProcurement@iom.int cc sokarim@iom.int and yhamada@iom.int, by 15 January 2025.

ANNEX 2. EVALUATION MATRIX

Relevance criterion:

MAIN QUESTION	SUB-QUESTIONS	METHODS	INDICATORS
Was the programme relevant to the needs of the countries and their stakeholders?	To what extent was the programme aligned with national stakeholder priorities and strategies?	- Desk research on national strategies and priorities, and on BMM design - Interviews with IOM/BMM staff and stakeholders	Examples of complementarities between BMM objectives and national strategy objectives Extent to which interviewees perceive that BMM contributed to national priorities and strategies
	To what extent was the programme aligned with the needs of migrants and target groups?	- Desk research on vulnerabilities of migrants and on BMM design - Interviews with IOM/BMM staff and stakeholders	Extent to which the BMM objectives focus on key needs and vulnerabilities of migrants Extent to which interviewees perceive that BMM aligned with the needs of migrants
	To what extent were stakeholders and beneficiaries included in the programme design?	- Desk research on the programme design - Interviews with IOM/BMM staff and stakeholders	Examples of engagement of stakeholders in programme design Extent to which stakeholders felt engaged in the programme design
Did IOM's activities remain valid and pertinent as originally planned, or were they subsequently modified?	Did the regional context or priorities change during the programme implementation?	- Desk research on regional developments between 2022-2025 - Interviews with IOM/BMM staff and stakeholders	Examples of regional developments affecting migration, most commonly mentioned in documentation and by interviewees
	Did the programme adjust to remain relevant considering these changes?	- Desk research on programme annual reports - Interviews with IOM/BMM staff and stakeholders	Examples of programme adjustments made throughout the programme Extent to which interviewees perceive that adjustments were sufficient to maintain the programme's relevance
	Were stakeholders and beneficiaries involved in discussions on programme adjustments?	- Desk research on programme annual reports - Interviews with IOM/BMM staff and stakeholders	Examples of engagement of stakeholders in programme adjustments Extent to which stakeholders felt involved in adjusting the programme

Coherence criterion:

MAIN QUESTION	SUB-QUESTIONS	METHODS	INDICATORS
To what extent was BMM coherent with other IOM projects?	To what extent did BMM complement or overlap with other initiatives of IOM?	- Desk research on IOM initiatives in the region - Interviews with IOM staff	Examples of IOM projects with similar and complementary objectives. Extent to which interviewees perceived that BMM complemented or overlapped other IOM initiatives
	To what extent did IOM take measures to enhance synergies with its other projects?	- Desk research on IOM initiatives in the region and BMM annual reports - Interviews with IOM staff	Examples of mutual reinforcement / cost savings / other complementarities created by IOM Extent to which interviewees perceive that IOM did enough to explore synergies

To what extent was BMM coherent with projects of other regional actors?	To what extent did BMM complement or overlap with initiatives of other actors?	- Desk research on other initiatives in the region - Interviews with IOM/BMM staff and stakeholders	Examples of national/regional projects with similar and complementary objectives. Extent to which interviewees perceived that BMM complemented or overlapped other initiatives
	To what extent did IOM/BMM take measures to enhance synergies with other actors?	- Desk research on programme annual reports - Interviews with IOM/BMM staff and stakeholders	Examples of mutual reinforcement / cost savings / other complementarities created by BMM partners Extent to which interviewees perceive that BMM partners did enough to explore synergies

Effectiveness criterion:

MAIN QUESTION	SUB-QUESTIONS	METHODS	INDICATORS
Did IOM deliver what it was supposed to do?	Did IOM implement its foreseen activities within the programme?	- Desk research on logframe, output indicators, activity work plans - Interviews with IOM/BMM staff	# of planned activities implemented # of planned activities missed
	Did IOM achieve its planned targets?	- Desk research on logframe, framework indicators and targets, activity work plans - Interviews with IOM/BMM staff	# targets met # targets exceeded # targets not met
Did IOM progress towards its expected outcomes?	To what extent did the programme “ensure that migration actors act in accordance with regional frameworks and human rights”?	- Desk research on annual reports, deliverables and other programme documentation - Interviews with IOM/BMM staff and stakeholders	Examples of progress towards the outcome listed in documentation and by interviewees Extent to which interviewees perceive that the programme contributed to strengthened governance and frameworks for migration management
	To what extent did the programme “increase cross-border coordination to combat smuggling and trafficking”?	- Desk research on annual reports, deliverables and other programme documentation - Interviews with IOM/BMM staff and stakeholders	Examples of progress towards the outcome listed in documentation and by interviewees Extent to which interviewees perceive that the programme contributed to integrated border governance and institutional support
	To what extent did the programme “protect victims of trafficking and vulnerable migrants”?	- Desk research on annual reports, deliverables and other programme documentation - Interviews with IOM/BMM staff and stakeholders	Examples of progress towards the outcome listed in documentation and by interviewees Extent to which interviewees perceive that the programme contributed to improved protection of victims of trafficking and vulnerable migrants
What hindered the implementation of the programme and	What factors supported the achievement of the three outcomes?	- Desk research on BMM documentation - Interviews with IOM/BMM staff and stakeholders	Factors supporting the achievement of outcomes, most commonly reported by respondents and in BMM documentation

achievement of outcomes?

What factors hindered the achievement of the three outcomes?	- Desk research on BMM documentation - Interviews with IOM/BMM staff and stakeholders	Factors hindering the achievement of outcome, most commonly reported by respondents and in BMM documentation
--	--	--

Cross-cutting area of interest: Why were certain approaches (related to policy-making, construction or renovation of border crossing points, the IOM X awareness-raising methodology) effective or not effective at all?

Efficiency criterion:

MAIN QUESTION	SUB-QUESTIONS	METHODS	INDICATORS
Was IOM cost-effective and created value for money?	Did the programme take measures to create savings?	- Desk research on programme budget and annual spending - Interviews with IOM/BMM staff	Extent to which annual spendings aligned with planned budget allocations Examples of savings made as presented in programme documentation and by interviewees
	Could results have been achieved with fewer resources?	- Desk research on programme documentation - Interviews with IOM/BMM staff	Examples of results that could have been achieved more efficiently Extent to which interviewees perceive that the programme was as efficient as possible with its resources
	Were the incurred costs proportional to the results achieved?	- Desk research on programme documentation - Interviews with IOM/BMM staff	Extent to which programme targets were achieved for the planned budget resources Extent to which interviewees perceive that BMM reached the maximum results for the available budget Extent to which interviewees perceive that the results were worth the investment
How timely was the programme implementation?	To what extent was the programme implemented within the planned timeline?	- Desk research on annual reports and the programme proposal - Interviews with IOM/BMM staff	Alignment of the final programme timeline with the timeline presented in the programme proposal Extent to which interviewees perceive that the programme was implemented timely
	Did the programme take sufficient measures to mitigate delays?	- Desk research on programme risk register and mitigation measures - Interviews with IOM/BMM staff and stakeholders	Examples of mitigation measures taken as listed in documentation and by interviewees Extent to which interviewees perceive that BMM partners took all necessary steps to mitigate delays
How efficient were IOM monitoring and reporting procedures?	Were indicators and targets suitable for programme monitoring?	- Desk research on the M&E framework and log frame - Interviews with IOM/BMM staff	Extent to which the M&E framework balanced quantity and quality, outputs-outcome-impact dimensions and all three outcome pillars. Extent to which interviewees perceive that the M&E framework provided sufficient data to reflect programme progress

	Was country-level M&E suitable to inform regional programme management?	- Desk research on the M&E framework and log frame, and annual reports - Interviews with IOM/BMM staff	Extent to which country data was collected with uniform standards and templates, feeding into regional templates Extent to which interviewees perceive that country-level data sufficed to inform regional-level decision-making and programme management
Cross-cutting area of interest: Did the BMM management by IOM facilitate agile management and overall efficient programme implementation?			

Impact criterion:

MAIN QUESTION	SUB-QUESTIONS	METHODS	INDICATORS
What initial positive signs of impact of the BMM can be noted?	Are there signs of improved ability of authorities to facilitate safe and orderly migration?	- Desk research on annual reports and other programme documentation - Interviews with IOM/BMM staff and stakeholders	Examples most commonly listed in programme documentation and by respondents Extent to which respondents perceive that the programme enhanced the ability of authorities to facilitate safe and orderly migration
	Are there signs of improved ability of authorities to reduce trafficking and smuggling?	- Desk research on annual reports and other programme documentation - Interviews with IOM/BMM staff and stakeholders	Examples most commonly listed in programme documentation and by respondents Extent to which respondents perceive that the programme contributed to a reduction of trafficking and smuggling.
Were any negative signs of impact noted and mitigated?	Did the IOM create any negative results?	- Desk research on annual reports and UNI matrix - Interviews with IOM/BMM staff and stakeholders	Examples of negative results listed in programme documentation and by interviewees
	Did the IOM take steps to mitigate or address negative effects?	- Desk research on annual reports - Interviews with IOM/BMM staff and stakeholders	Examples of mitigation measures taken, as reported in documentation and by interviewees Extent to which interviewees perceive BMM staff took sufficient measures to mitigate negative results.

Sustainability criterion:

MAIN QUESTION	SUB-QUESTIONS	METHODS	INDICATORS
Did the target groups/ stakeholders make any plans to continue with ensuring the programme deliverables	To what extent do stakeholders demonstrate ownership of the results?	- Desk research on BMM documentation - Interviews with IOM/BMM staff and stakeholders	Extent to which governments and other stakeholders perceive they have sufficient ownership and capacity Examples of ownership, such as involvement in the BMM planning and implementation, adoption of policies, etc.
	To what extent do stakeholders have sufficient technical,	- Desk research on BMM documentation	Extent to which governments and other stakeholders perceive they have sufficient ownership and capacity

persisted after the end of BMM's support?	managerial and financial capacity to maintain the results?	- Interviews with IOM/BMM staff and stakeholders	Examples of sufficiency of staff, competencies, structures, funding etc. needed to continue this work
How did the programme ensure its sustainability?	Did the programme design include a sustainability strategy?	- Desk research on programme design and exit strategies, including the sustainability matrix - Interviews with IOM/BMM staff and stakeholders	Existence of an exit strategy or sustainability session Extent to which interviewees agree that the programme design included measures to ensure sustainability
	Did the programme take active measures to ensure its sustainability?	- Desk research on BMM documentation - Interviews with IOM/BMM staff and stakeholders	Examples of measures and activities contributing to sustainability as listed in documentation and by interviewees Extent to which interviewees perceive BMM took sufficient measures to ensure or maximise its sustainability

ANNEX 4. INTERVIEW QUESTIONNAIRES

The following interview questions formed the basis for the interview process. However, before each interview, the consultants reviewed the engagement of each respondent in the programme as well as their area of expertise. Based on that, the questionnaire was adjusted with more specific questions related to the respondent's work. Note that all questions below relate to IOM activities within the BMM programme Phase III.

REGIONAL INTERVIEWS

The following list of questions will be posed to regional-level IOM/BMM staff as well as regional-level stakeholders such as GIZ, UNODC, CIVIPOL and British Council.

INTRODUCTION

Could you briefly introduce yourself, your role, and your involvement in the IOM BMM programme? Since when and how long have you been involved in the programme?

Relevance		Respondents
1	Considering that IOM's BMM programme was a programme covering six countries – how did the programme overall design ensure alignment with the needs and priorities of each country?	IOM/BMM staff
	Do you think IOM BMM's overall design was relevant for all six countries' national contexts and levels of development? How?	Regional stakeholders
2	From your organisation's perspective, what are the main challenges faced by migrants in the Horn of Africa? How does IOM's BMM programme address those specific challenges?	IOM/GIZ
3	Were there any developments in the region that affected the relevance of the programme or the needs of the six countries and of vulnerable migrants? Did IOM adjust to these changing needs?	All
Coherence		
1	To your knowledge, are there any other projects or programmes in the region that focus on the same priorities and objectives? Do you think the IOM BMM programme was complementary with other projects or did you notice overlaps?	Regional stakeholders
2	Does your organization implement any other projects related to migration governance and protection of migrants? Have you made efforts to create synergies with your other projects? And have you taken measures to avoid overlaps with the projects of other actors?	IOM/BMM staff
Effectiveness		
1	Did IOM's BMM programme implement all foreseen activities and reach the intended target groups? If not, why not?	IOM/BMM staff

2	Do you think that IOM's BMM programme contributed to "ensuring that migration actors act in accordance with regional frameworks and human rights"? Can you provide examples of what achievements you have witnessed in this regard?	All
3	Do you think IOM's BMM programme "increased cross-border coordination to combat smuggling and trafficking"? Can you provide examples of what achievements you have witnessed in this regard?	All
4	To what extent did IOM's BMM "protect victims of trafficking and vulnerable migrants"? Can you provide examples of what achievements you have witnessed in this regard?	All
5	Did you notice any challenges regarding the IOM's BMM? Any objectives that were not, or insufficiently achieved? What could IOM have done better?	All
6	What factors contributed to the success of the programme? What factors hindered the programme implementation and success?	All
Efficiency		
1	Do you believe the budget for IOM's BMM was sufficient considering its objectives and activities? <i>In case no: for which dimensions or countries of the programme were resources insufficient?</i>	IOM/BMM staff GIZ
2	Have you taken any measures to enhance efficiency and create savings on programme activities? Do you believe BMM could achieve similar results with less resources? In which areas could the programme have been more efficient?	IOM/BMM staff IOM/BMM staff and GIZ
3	Do you believe the programme costs were justified considering its result? Were any activities more costly than the results they created? If you had to redesign the programme, would you drop out any activities for lack of value for money?	IOM/BMM staff
4	What factors caused delays in the programme implementation? Were these factors foreseen in programme risk registers? What measures were taken to mitigate the delays? Do you believe the BMM programme staff took sufficient measures to mitigate delays and other challenges to the programme implementation?	IOM/BMM staff Regional stakeholders
5	Do you believe the programme's indicators and monitoring system were suitable to give a comprehensive picture of the programme's progress? Do you see any weaknesses in the M&E system?	IOM/BMM staff

6	How did you experience the quality of national-level M&E? Was sufficient data of good quality collected to provide a good, comparable overview of the programme progress and inform decision making?	IOM/BMM staff
---	--	---------------

Impact

1	How would you describe the progress made by IOM (through BMM) towards the objective of “enabling national authorities and institutions to manage safe, orderly and regular migration by applying a human rights-based approach and addressing human trafficking and smuggling of migrants? Can you give examples?	All
2	Did the programme create any unintended negative effects? If yes, what measures did you take to mitigate those effects? Did IOM’s BMM create any unintended negative effects? If yes, do you think the IOM BMM team took sufficient measures to address these effects?	IOM/BMM staff Regional stakeholders

Sustainability

1	How do you assess stakeholders’ engagement in the programme implementation? Do they have sufficient ownership and willingness to continue working towards the BMM objectives after the programme closure?	IOM/BMM staff
2	Do you believe that national governments have sufficient resources and capacity to continue working towards the BMM objectives after the programme closure? Does this differ among the six countries? Or among the types of stakeholder organisations?	All

Closure

Do you have any other comments about the BMM programme and IOM activities within its Phase III?	Respondents
	All

NATIONAL INTERVIEWS

The following questions will be posed to national-level IOM/BMM staff and to national-level stakeholders (government/CSOs). Stakeholders will be informed that the evaluation and interview only cover IOM’s component of the BMM programme.

INTRODUCTION

Could you briefly introduce yourself, your role, and your involvement in the IOM BMM programme? Since when and how long have you been involved in the programme?

Relevance	Respondents
1	Was your organization involved in the design of the BMM programme? And were you consulted throughout the programme implementation?
2	Considering that BMM was a programme covering six countries – how did the programme overall design ensure alignment with the needs and priorities of your country?

	Did IOM's BMM programme align with your national priorities and strategies? Which ones? How?	National stakeholders
3	From your organisation's perspective, what are the main challenges faced by migrants in your country? How does IOM's BMM programme address those specific challenges?	All
4	Were there any developments in your country between 2022-2025 that affected your priorities or migrants' needs? Did IOM's BMM programme adjust to these changing needs and priorities? Were you able to suggest changes to the programme?	All
Coherence		
1	Does your organization implement any other projects related to migration governance and protection of migrants in the country? Have you made efforts to create synergies with your other projects? And have you taken measures to avoid overlaps with the projects of other actors?	IOM/BMM staff
Effectiveness		
1	Did IOM's BMM programme implement all foreseen activities and reach the intended target groups in your country? If not, why not?	IOM/BMM staff
2	Do you think IOM's BMM programme contributed to "ensuring that migration actors act in accordance with regional frameworks and human rights"? Can you provide examples of what achievements you have witnessed in your country that contributed to this outcome?	All
3	Do you think IOM's BMM programme "increased cross-border coordination to combat smuggling and trafficking"? Can you provide examples of what achievements you have witnessed in this regard?	All
4	To what extent did IOM's BMM programme "protect victims of trafficking and vulnerable migrants"? Can you provide examples of what achievements you have witnessed in this regard?	All
5	Did you notice any challenges regarding IOM's BMM programme in your country? Any objectives that were not, or insufficiently achieved? What could IOM have done better?	All
6	What factors contributed to the success of IOM's BMM programme? What factors hindered the programme implementation and success?	All
Efficiency		
1	Do you believe the budget for the BMM activities in your country was sufficient considering its objectives and activities? <i>In case no: for which dimensions were resources insufficient?</i>	IOM/BMM staff

2	Have you taken any measures to enhance efficiency and create savings on programme activities?	IOM/BMM staff
	Do you believe IOM's BMM programme could achieve similar results with less resources? In which areas could the programme have been more efficient?	IOM/BMM staff
3	Do you believe the programme costs were justified considering its result? Were any activities more costly than the results they created? If you had to redesign the programme, would you drop out any activities for lack of value for money?	IOM/BMM staff
4	What factors caused delays in the programme implementation? Were those unique to your country or caused by regional-level difficulties? What measures were taken to mitigate the delays?	IOM/BMM staff
	Do you believe IOM's BMM programme staff took sufficient measures to mitigate delays and other challenges to the programme implementation?	National stakeholders
5	Do you believe the programme's indicators and monitoring system were suitable to give a comprehensive picture of the programme's progress in your country? Do you see any weaknesses in the M&E system?	IOM/BMM staff
Impact		
1	How would you describe the progress made by IOM (through BMM) towards the objective of "enabling national authorities and institutions to manage safe, orderly and regular migration by applying a human rights-based approach and addressing human trafficking and smuggling of migrants? Can you give examples?	All
2	Did IOM's BMM programme create any unintended negative effects? If yes, what measures did you take to mitigate those effects?	IOM/BMM staff
	Did IOM's BMM programme create any unintended negative effects? If yes, do you think the BMM team took sufficient measures to address these effects?	National stakeholders
Sustainability		
1	How do IOM's BMM programme objectives align with your organisation's priorities and ongoing work? Do you have plans to continue working on the BMM's results and objectives?	National stakeholders
2	How do you assess stakeholders' engagement in the programme implementation? Do they have sufficient ownership and willingness to continue working towards the BMM objectives after the programme closure?	IOM/BMM staff
3	Do you believe that you have sufficient resources and capacity to continue working towards IOM's BMM programme objectives after the programme closure?	National stakeholders
	Do you believe stakeholders have sufficient capacity and resources to continue working towards the BMM objectives after the programme closure?	IOM/BMM staff

Closure	Respondents
Do you have any other comments about IOM's BMM programme?	All
